![Century Wire and Cable logo] **CENTURY®** WIRE AND CABLE

Pro LOCK ™

"For Secure & Safe Connections"

CGM™ PROTECTED
Continuous Ground Monitoring Safety System

50ft 10/3 SJTW
Molded Extension Cords with CGM

Each of our Pro Lock™ Extension Cords are molded with our unique and patented Pro Lock™ female connector. When a standard extension cord with a 15A-125V, 3 conductor male plug is inserted into our Pro Lock™ connector, it won't pull apart. This prevents accidental disconnects that result in an inconvenient loss of power. Simply pull down on the connector collar to disconnect extension cords.

FEATURES

- Manufactured to 10/3 AWG (American Wire Gauge) specifications.
- Each of the three conductors contain 104 strands of 30 AWG 100% copper wire.
- Molded on Pro Lock™ connectors will not pull away from the cord body and offer extra water resistance.
- Automatic locking feature: insert male end into our Pro Lock™ connector, push together to lock & pull the collar down to unlock.
- We use high impact polycarbonate on both housing & collar on our Pro Lock™ connectors to guarantee hard service, extra-heavy duty use.
- Pro Lock™ Pull Strength: 80 Lbs. horizontally or vertically.
- Lighted Amber Power Check plug and indicates there is power running through the cord.
- Pro Lock™ green lighted CGM connector identifies ground continuity in the circuit.
- Our -58°F (-50°C) special coldweather PVC jacket guarantees working flexibility in temperatures well below freezing.
- Presented in 2 vibrant colors: Orange, Blue.
- UL Listed and cUL Approved for Canada.

WARNING: ⚠️ This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Custom Print Available, Absolutely Free!
Allow 7 Extra Days For Delivery.

We'll print your customer's name and telephone number every 12 inches down the entire length of the cord. Printed cords discourage jobsite theft and provide instant advertising and company recognition which will promote more business.

This prevents accidental disconnects that result in an inconvenient loss of power. Simply pull down on the connector collar to disconnect extension cords.

FEATURES

- Manufactured to 12/3 AWG (American Wire Gauge) specifications.
- Each of the three conductors contain 64 strands of 30 AWG 100% copper wire.
- Molded on Pro Lock™ connectors will not pull away from the cord body and offer extra water resistance.
- Automatic locking feature: insert male end into our Pro Lock™ connector, push together to lock & pull the collar down to unlock.
- We use high impact polycarbonate on both housing & collar on our Pro Lock™ connectors to guarantee hard service, extra-heavy duty use.
- Pro Lock™ Pull Strength: 80 Lbs. horizontally or vertically.
- Lighted Amber Power Check plug and indicates there is power running through the cord.
- Pro Lock™ green lighted CGM connector identifies ground continuity in the circuit.
- Our -58°F (-50°C) special coldweather PVC jacket guarantees working flexibility in temperatures well below freezing.
- Presented in 3 vibrant colors: Orange, Blue, Green
- UL Listed and cUL Approved for Canada.

100ft 12/3 SJTW
Molded Extension Cords with CGM

c (UL) us

Each of our Pro Lock™ Extension Cords are molded with our unique and patented Pro Lock™ female connector. When a standard extension cord with a 15A-125V, 3 conductor male plug is inserted into our Pro Lock™ connector, it won't pull apart. This prevents accidental disconnects that result in an inconvenient loss of power. Simply pull down on the connector collar to disconnect extension cords.

FEATURES

- Manufactured to 12/3 AWG (American Wire Gauge) specifications.
- Each of the three conductors contain 64 strands of 30 AWG 100% copper wire.
- Molded on Pro Lock™ connectors will not pull away from the cord body and offer extra water resistance.
- Automatic locking feature: insert male end into our Pro Lock™ connector, push together to lock & pull the collar down to unlock.
- We use high impact polycarbonate on both housing & collar on our Pro Lock™ connectors to guarantee hard service, extra-heavy duty use.
- Pro Lock™ Pull Strength: 80 Lbs. horizontally or vertically.
- Lighted Amber Power Check plug and indicates there is power running through the cord.
- Pro Lock™ green lighted CGM connector identifies ground continuity in the circuit.
- Our -58°F (-50°C) special coldweather PVC jacket guarantees working flexibility in temperatures well below freezing.
- Presented in 3 vibrant colors: Orange, Blue, Green
- UL Listed and cUL Approved for Canada.
