

Cable Assemblies

PIN & SLEEVE ASSEMBLIES

Power Assemblies' PowerTEK™ IEC Pin & Sleeve extensions, tails, and adapters are manufactured with high quality corrosion/impact resistant components for lasting electrical performance. Watertight sealing provides IP69K protection, so you can feel confident in the most severe wash-down environments.

KEY FEATURES & BENEFITS

Compatible with all IEC 60309 Pin & Sleeve device manufacturers; including Leviton, Hubbell, and Mennekes

Organized grounding pin assures mating only with oversized female grounding sleeve; staggered contact ensures ground mates first and breaks last

IP69K rated connectors designed to address high pressure, high temperature wash-down applications

Color coded housings for easy and accurate identification of voltages

Engineered nylon material improves cold impact performance for 60A & 100A assemblies

Mechanical cord clamp with silicone grommet ensures a positive watertight strain-relief system

APPLICATIONS

MINING & CONSTRUCTION
