

Cable Assemblies

WATERPROOF NEMA ASSEMBLIES

Power Assemblies' PowerTEK™ NEMA Assemblies are designed and engineered to deliver maximum performance in the harshest environments. Power Assemblies' cable assemblies offer a wide array of single and multi-pole devices from manufacturers such as Hubbell, Marincor, Cooper/Crouse-Hinds, and Leviton.

Our PowerTEK™ assemblies are designed to facilitate safety and performance, with ease of installation of a complete power distribution network.

KEY FEATURES & BENEFITS

Industrial abrasion, wear, and tear resistant for long lasting performance

Water, sunlight, and oil resistant, withstanding harsh conditions

UL Listing (indoor & outdoor) and CSA certified on all SOOW products

MSHA Approved as thermoset rubber does not deform after exposure to flames

Our locking plugs and devices are NEMA configured with agency certification. Additionally, device ratings are molded onto the front of each device to assist with identification

Locking devices ergonomic design proves ideal for gripping, turning, and pulling

Locking plugs & connectors tough nylon body resists damage from severe impact
